ABOUT PLAYER DEVELOPMENT PROGRAMS (PDPs):

[Player Development Programs \(PDPs\)](#) are regionally-based identification and development programs conducted within the [id² National Identification and Development Program](#) and centered around US Club Soccer's National Premier Leagues. The id² Program and PDPs are sanctioned as Olympic Development Programs.

PDP invitations are based upon scouting within the NPL, scouting of NPL clubs and other nearby clubs, as well as recommendations from Directors of Coaching. Based upon this scouting and recommendation process, top players are invited to attend PDP events. id² Program scouts are on-site at all PDP events to scout players for potential inclusion in id² Program Training Camps. U.S. Soccer scouts will also attend many PDP events to scout players for consideration in U.S. Soccer Youth National Team camps.
